

ANUSHKA MUKHERJEE

Department of Macroeconomics, Leibniz-Institut für Wirtschaftsforschung Halle (IWH)
Leipzig Universität, Halle (Saale), Germany

anushka.mukherjee@iwh-halle.de · anushkamukherji.wordpress.com · github.com/annethecodegirl

FIELDS OF INTEREST

Primary International macro-finance; multinational firms and the global financial cycle.
Secondary AI governance and the measurement of algorithmic harm; applied microeconometrics.

ACADEMIC POSITION

2025–present **Halle Institute for Economic Research (IWH), Halle (Saale)**
Doctoral Researcher, Department of Macroeconomics
Doctoral candidate at Leipzig University.

EDUCATION

2025–2029 (expected) **Leipzig University · IWH Halle**
Ph.D. in Economics
Dissertation (provisional title): *Multinational Enterprises and the Transmission of the Global Financial Cycle*. Firm-level production-function estimation combined with panel regressions on firm and time fixed effects, separating physical productivity from price and demand effects and estimating heterogeneous responses by multinational status and financial constraints.

2022–2025 **Rheinische Friedrich-Wilhelms-Universität Bonn**
M.Sc. in Economics · Grade 1.6 (German scale, 1.0 best)
Thesis: *Modeling Household Carbon Footprints: Methods, Metrics and Estimation Frameworks* — the attribution logic embedded in measurement methods and its influence on the prioritisation of policy instruments. Advanced coursework: Empirical Banking & Finance; Scientific Computing for Economists; Institutional Economics.

Feb–Jun 2025 **ENSAE Paris**
Visiting student · Erasmus+ mobility grant
Machine Learning for Econometrics; AI in Insurance & Actuarial Studies; New Technology & the Sharing Economy; Applied Public Economics.

2019–2022 **Jadavpur University, Kolkata**
B.A. in Economics · CGPA 8.72/10, First Class
Thesis: *Studying the Impact of Spatial Price Variations on Digital Payment Adoption* — primary survey data on retail merchants and consumers, relating local price levels and demographic characteristics to the adoption of digital payments.

RESEARCH

Under Review

2026 “Governing Frontier AI: Organizational Boundaries and the Providers of AI Governance.” Sole-authored. Submitted August 2026; under review at *AI for Society*.
Combines a compute-threshold sample of twelve frontier developers with dated first-party governance disclosures and a May 2025 Crunchbase snapshot. Of 25 realised governance-provision instances across ten developers, 11 are internal and 14 external; evaluation is the most prominent function (17 instances), and OpenAI and Anthropic alone account for 85.7% of external instances. Set against a frozen baseline of 51 specialist providers, documented provision spans several organizational forms, so venture-oriented startup data cannot by themselves supply a census of frontier-AI governance provision. JEL: L22, L51, O31.

Working Papers

- 2026 “Estimating Differential Routing Rates in Germany’s Federal Employment Agency: An Epidemiological Approach to AI Incident Monitoring in High-Risk Labour-Market Systems.” With Aileen Voit, Nafisah Animashaun and Leonard Schmidt. SAIGE Incubator Working Paper.
- Uses published monthly statistics (June 2016–April 2026) to compare how unemployed jobseekers are registered across support categories. Flight-context jobseekers in the SGB III insurance regime are registered for unskilled-tier occupations 1.6 times as often as the comparison group and receive substantive vocational training at half the rate, while SGB II shows parity.

Work in Progress

- “Multinational Firms over the Global Financial Cycle: Greenfield FDI and the Transmission of US Monetary Policy.” Sole-authored; dissertation chapter.
- Links project-level greenfield investment announcements from fDi Markets to Compustat to build a firm- and project-level panel of US multinationals, and asks whether US monetary policy surprises transmit differently through multinationals than through purely domestic firms. A US–China comparison tests differential adjustment of foreign investment over the global financial cycle.

RESEARCH AND PROFESSIONAL EXPERIENCE

- Apr–Jul 2026 **SAFE AI Germany (SAIGE), Berlin**
SAIGE Incubator Programme — AI Governance & Policy Track
- Co-author on *Estimating Differential Routing Rates in Germany’s Federal Employment Agency*: designed the monitoring framework, built the bounded estimator and wrote the empirical sections. Mentor: Branwen Nia Owen (Arcadia).
 - Assessed transparency and administrative-law implications of the Federal Employment Agency’s profiling infrastructure under the EU AI Act (Annex III, Article 13) and §35a VwVfG, in a setting where no methodology for the system has been published.
 - Contributed an entry to the AIAAIC incident repository and to a policy brief on algorithmic harm in labour-market systems, extending incident monitoring to chronic bureaucratic harms.
- May–Oct 2024 **Centre for Development Research (ZEF), Bonn**
Research Assistant
- Supported the BMBF-funded “Future African Savannas” (AFAS) project across Bonn, Cologne and African partner universities; managed planning for the AFAS Summer School (August 2024), including logistics, costing and international coordination.
- Apr–Oct 2022 **School of Policy and Governance**
Summer Intern — Programme Support
- Content development and outreach for the “Net Zero Fellowship” and the “Certificate Course on Public Policy”; backend support for the e-learning platform and website.
- May–Jun 2021 **Essar Oil & Gas Exploration & Production Ltd.**
Finance Intern
- Balance-sheet preparation for the annual audit; project on production and exploration accounting.

PRESENTATIONS AND DISCUSSIONS

- 2026 Discussant, *Monetary Integration and Structural Change in a Small Open Economy: Evidence from Slovakia* (André Casalis and Gregor von Schweinitz). IWH Macro Network Day 2026, IWH Halle (Saale).

GRANTS AND AWARDS

- 2025 Erasmus+ mobility grant — exchange semester at ENSAE Paris
- 2025 Certificate of Intercultural Competence — University of Bonn

COMPUTATIONAL SKILLS AND LANGUAGES

<i>Programming</i>	Python · R · Stata · MATLAB · Git · $\LaTeX$
<i>ML & statistics</i>	scikit-learn · Hugging Face · DoubleML · statsmodels
<i>Methods</i>	Panel and event-study designs; causal machine learning; bounding and sensitivity analysis; text- and network-based measurement
<i>Languages</i>	English (fluent, medium of instruction and research) · Bengali (native) · Hindi (native) · German (B1) · French (A1)

SELECTED TECHNICAL PROJECTS

2025 ENSAE Paris	Causal machine learning with DoubleML (Python) Partially linear DoubleML specification with orthogonal scores and cross-fitted nuisance models estimating scholarship effects on student outcomes: -17.6 percentage points on dropout and $+23.8$ points on graduation.
2023 Univ. of Bonn	Sentiment analysis with DistilBERT (Python) Fine-tuned DistilBERT for multi-class emotion classification in poetry; built the full NLP workflow from cleaning and tokenisation through training and class-level evaluation.
2023–24 Univ. of Bonn	Polynomial order in regression discontinuity (R) Monte Carlo experiment comparing RD estimators across polynomial specifications; evaluated finite-sample bias, variance and RMSE under repeated simulated assignment around a fixed cutoff.

TRAINING AND WORKSHOPS

Aug 2026	AI and Digital Transformation in Government — Saïd Business School, University of Oxford
Jul 2026	Secure and Sovereign AI Workshop — Foresight Institute
Jul 2026	4th Summer School in International Economics — <i>Journal of International Economics</i> & Bocconi University, Milan
Jun 2026	Fostering AI Resilience in the EU Labour Market — Brussels AGI Collective, Commons Hub Brussels
Apr 2026	Provably Safe Neural Network Controllers via Differential Dynamic Logic — Orpheus Lummis & Samuel Teuber, H Ω
Feb 2026	13th CGDE Doctoral Workshop — IWH Halle (Saale)
Feb 2026	Designing Effective Academic Posters — Martin-Luther-Universität Halle-Wittenberg
Nov 2025	Euro20+ Workshop — Deutsche Bundesbank, Frankfurt
Oct 2025	Climate and Energy Policy Workshop — Leipzig University
2025–26	Regular participant, SAIGE Berlin AI safety seminar series
Sep 2024	Student Reporter, Tropentag 2024 — BOKU Vienna
Jul 2024	Deutsch als Fremdsprache B1.1 — University of Bonn
Aug 2023	Start-up Summer School — H-BRS & University of Bonn
Jul 2023	Summer School on Ethics — University of Bonn & University of Ghana
May 2023	Intercultural Training — University of Bonn
Oct 2022	Certificate Course on Public Policy — School of Policy and Governance

PUBLIC WRITING AND SERVICE

Ongoing	Writing on economics, policy and global affairs — anushkamukherji.wordpress.com
Sep 2024	Student reporter, Tropentag 2024 (BOKU Vienna): three articles on agroforestry, gender and food systems — blog.tropentag.de/category/2024
2023	Team Leader, iStart Career, Bonn
2021–22	Vice-President and Events Head, Global Youth India
