

Anushka Mukherjee

ECONOMICS | AI GOVERNANCE | MACRO-FINANCE

Halle (Saale), Germany | anushka.mukherjee@iwh-halle.de
annethecodegirl.github.io/CV | github.com/annethecodegirl

Research interests: Economics of AI; organizational boundaries in frontier-AI governance; AI and public finance; multinational firms and the global financial cycle.

EDUCATION

Leipzig University / Halle Institute for Economic Research (IWH)

PhD in Economics | 2025-present | Expected 2029

Supervisor: Prof. Xiang Li. Research on multinational enterprises and the transmission of the global financial cycle.

University of Bonn

MSc in Economics | 2022-2025 | Grade: 1.6 (German scale, 1.0 best)

Thesis: *Modeling Household Carbon Footprints: Methods, Metrics and Estimation Frameworks*.

ENSAE Paris

Visiting student | Feb-Jun 2025 | Erasmus+ mobility grant

Jadavpur University, Kolkata

BA in Economics | 2019-2022 | CGPA: 8.72/10, First Class

RESEARCH APPOINTMENTS AND PROGRAMMES

Halle Institute for Economic Research (IWH)

Doctoral Researcher, Macroeconomics | Oct 2025-present

Firm-level research on multinational investment and global financial conditions, using fDi Markets and Compustat.

SPAR

Research Participant | Sep 2026-present | Mentor: Pavel Kocourek

AI and public-finance direction within *The Economic Value of AI Capability Gains*: how capability gains affect taxable income and its distribution.

SAFE AI Germany (SAIGE), Berlin

Incubator Programme, AI Governance & Policy Track | Apr-Jul 2026

Mentor: Branwen Nia Owen. Designed a monitoring framework, built a bounded estimator and wrote empirical sections of a co-authored working paper on differential routing in Germany's Federal Employment Agency.

WORKING PAPERS

Governing Frontier AI: Organizational Boundaries and the Providers of AI Governance

Sole-authored | Under review, AI for Society | Submitted Aug 2026

Original coding of 25 governance-provision instances across ten frontier developers, compared with a 51-firm specialist-provider baseline. Studies organizational arrangements and the limitations of disclosure-based measurement. Draft available on request.

WORKING PAPERS (CONTINUED)

Estimating Differential Routing Rates in Germany's Federal Employment Agency

With Aileen Voit, Nafisah Animashaun and Leonard Schmidt | SAIGE working paper, 2026

Uses published monthly administrative statistics from June 2016 to April 2026 to study occupational registration and vocational training. Documents disparities concentrated in the SGB III insurance regime; aggregate data cannot attribute them to profiling infrastructure, selection or caseworker practice.

RESEARCH IN PROGRESS

Multinational Firms over the Global Financial Cycle: Greenfield FDI and the Transmission of US Monetary Policy

Sole-authored | Dissertation chapter | Work in progress

Building a firm- and project-level panel using fDi Markets and Compustat to examine multinational investment responses to US monetary policy, including a comparison of US- and China-headquartered firms.

SELECTED TECHNICAL PROJECTS

Causal machine learning with DoubleML | ENSAE Paris, 2025

Python team project using a partially linear specification, orthogonal scores and cross-fitted nuisance models to estimate scholarship effects on student dropout and graduation.

Sentiment analysis with DistilBERT | Bonn, 2023

Fine-tuned DistilBERT in Python for multi-class emotion classification in poetry, including cleaning, tokenization, training-validation splits and class-level evaluation.

Polynomial order in regression discontinuity designs | Bonn, 2023-2024

Monte Carlo experiment in R comparing regression-discontinuity estimators across polynomial specifications: finite-sample bias, variance and root mean squared error.

PRESENTATIONS AND SERVICE

2026: Discussant, *Monetary Integration and Structural Change in a Small Open Economy: Evidence from Slovakia* (André Casalis and Gregor von Schweinitz), IWH Macro Network Day.

Aug 2026: Research presentation, AuDe Workshop, IJCAI-ECAI, Bremen.

Referee service: *Internet Policy Review*; *Economic Change and Restructuring*.

EARLIER RESEARCH EXPERIENCE

Centre for Development Research (ZEF), Bonn - Research Assistant, May-Oct 2024. Supported Future African Savannas; coordinated planning, costs and international logistics for the August 2024 summer school.

METHODS AND LANGUAGES

Programming: Python, R, Stata, MATLAB, Git, LaTeX.

Libraries: scikit-learn, Hugging Face, DoubleML, statsmodels.

Methods: panel and event-study designs; causal machine learning; bounding and sensitivity analysis; text- and network-based measurement.

Languages: English (fluent); Bengali and Hindi (native); German (B1); French (A1).
